HALA DAWOUD

Junior Front-End Developer | Flutter & Web Development

+972 59 509 2721 | Haladaoud251@gmail.com | Ramallah, Palestine | LinkedIn: hala-daoud-616529327

PROFESSIONAL SUMMARY

Computer Science graduate focused on front-end development, with training in HTML, CSS, Bootstrap, JavaScript, and React, and hands-on experience building user interfaces with Flutter and a PHP/HTML login system. Built Balad Eye, a municipal complaints mobile application (Flutter, Node.js, PostgreSQL), as a graduation project, including REST API integration and contributions to an administrative dashboard. Comfortable designing interfaces in Figma and Canva. Seeking an entry-level remote Front-End Developer role to keep learning and growing through real projects.

TECHNICAL SKILLS

Front-End (training & projects):	HTML, CSS, Bootstrap, JavaScript, React, Flutter
Programming & Development:	Dart, Flutter, Node.js, PostgreSQL
Foundational Knowledge:	Python, Java, C++
Tools	Visual Studio, Android Studio, Hoppscotch, Figma, Canva

EDUCATION

Arab American University — Bachelor of Science (B.Sc.) in Computer Science *2022 – 2026*

Birzeit University — Undergraduate Studies in Industrial Chemistry *2021 – 2022*

GRADUATION PROJECT

Balad Eye — Municipal Complaints Mobile Application

Flutter | Node.js | PostgreSQL

- Developed a mobile application that enables residents to submit location-based municipal complaints and emergency reports.
- Built features for user registration and verification, complaint submission, priority determination, and location tracking.
- Contributed to backend services and PostgreSQL database design for managing users, complaints, locations, and status updates.
- Contributed to an administrative dashboard for reviewing, prioritizing, and tracking submitted complaints.
- Tested application workflows and backend endpoints to identify errors and improve functionality.

PRACTICAL TRAINING

Palestinian Islamic Bank

General Administration, Ramallah | 2026

- Gained practical exposure to Oracle and MySQL databases, including database and table management, SQL queries, data retrieval, and updates.
- Developed a simple PHP/HTML login system connected to a database using XAMPP, including user verification and password change functionality.
- Gained practical exposure to Linux, including basic commands and file-system structure.
- Explored basic UI/UX design principles and created user-interface designs using Canva, focusing on layout, navigation, colors, and usability.

COURSES & CERTIFICATIONS

Programming & Web Development

- Foundations of Web Development: CSS, Bootstrap, JavaScript, and React — Udemy | 2026
- Programming Bootcamp: Python, JavaScript, C++, PHP, and MySQL — Udemy | 2026
- CSS, Bootstrap, JavaScript, and Python Stack — Udemy | 2026
- Bash Scripting and Automation — Udemy | 2026

Cybersecurity & Artificial Intelligence

- Managing Your Agentic Employees — AI Security University (AISEC) | 2026
- Ethical Hacking — Udemy | 2026
- Introduction to Modern AI — Cisco Networking Academy | 2026
- Basics of Cybersecurity and AI Strategies — Albalasmeh Business Company Ltd., UK | 2026

Additional Training

- Project Management Training — INJAZ Palestine | 2026
- News and Information Fact-Checking Workshop (Daqqiqha Campaign) — Arab American University | 2025
- Fundamentals of Digital Marketing — Google | 2022

EXPERIENCE & VOLUNTEERING

Event Organization Volunteer — Community Events

Ramallah | 2023

- Assisted with event preparation and basic organization.
- Helped with arranging the venue and coordinating participants during events.
